Summary:

Highly motivated TE CSE (AIML) student with a strong foundation in artificial intelligence, web computing, and data-driven applications. Experienced in developing innovative chatbot systems using Python, Flask, and Google Sheets, with a focus on practical problem-solving and user-centric design. Proficient in leveraging generative AI technologies and interested in advancing expertise in monitoring systems and adaptive learning platforms. Passionate about combining technical skills with a commitment to excellence in academic and real-world projects.

Top Skills

- Programming languages: C, Java, Python
- Frameworks and libraries: Flask
- Databases: MongoDB, MySQL
- Tools: GitHub, Twilio
- Active listening
- Project planning
- Project management
- Multitasking Abilities

projects

- **CG Header files**

Developed custom computer graphics library functions in C to create and manipulate 2D shapes. Implemented algorithms for line drawing, circle generation, and transformations like scaling, rotation, and translation. Enhanced understanding of computer graphics concepts and low-level programming.

- **Multipurpose Whatsapp Chatbot**

Developed an independent chatbot application for students to access attendance details seamlessly. The chatbot allows login using college-provided email IDs, stores class, branch, and roll number details for future interactions, and fetches average and subject-specific attendance from Google Sheets. Designed to streamline student queries, the chatbot ensures a user-friendly and efficient experience.

- **Attendance Tracker 24*7 Support**

Developed a GUI-based application for sending messages to specific numbers to request attendance information. The application integrates user-friendly graphical interfaces with backend functionality to streamline communication and automate attendance queries, enhancing efficiency and accessibility for users..

Education

- **Bachelor of Computer Engineering(B.E.)**, Graduation Year (2026), Gharda Institute of Technology, Ratnagiri.
- **H.S.C** , Maharashtra State Board of Secondary and Higher Secondary Education (2021), **83.67%**.
- **S.S.C**, Maharashtra State Board of Secondary and Higher Secondary Education(2019), **89.20%**.

Certification

- Java programming (NPTEL)

- Google Cloud Study Jam (Google)
- Gen AI for code generation for Python (Edureka on Coursera)
- AWS Academy Graduate (AWS Academy Cloud Foundations)

Extracurricular Activities

- Leadership Roles: Coordinator for Blood Donation Camp (NSS).
- Committee Roles: Event Organizer of BRAINS committees.
